CHAIRMAN'S MESSAGE

"Our numbers bear testimony to our future-readiness and our excellent performance endorses our success in sustaining the growth momentum that we had built in the previous fiscal."

Dear Shareholders,

Every journey has its special moments; this is ours. We are today at an important milestone when we are ready to take a great leap forward in our journey towards becoming one of the best in the industry. Our numbers bear testimony to our future-readiness and our excellent performance endorses our success in sustaining the growth momentum that we had built in the previous fiscal.

Led by our strong focus on customer-centricity and a robust pipeline of exceptional products designed to meet the customers' evolving needs, we achieved a 15% growth in new business premium in individual life. We recorded unprecedented growth across new business premium, renewal premium and total premium last year. We continued to expand our market share by leveraging our core strengths. Our superior performance extended across other parameters too, including earnings before tax and expense ratio.

This growth was achieved on the back of many strategic initiatives we have taken over the last few years to transform our organisation into a future-ready entity. The growth also endorsed the success of the investments we have made across our business framework, which we have regularly reviewed and aligned to the changing realities of the domestic and international social and economic situations.

According to E&Y's '2015 Global Insurance Outlook', insurers are investing in technological advancements to strengthen their relationships with customers and empowering them to connect better with the organisation. Insurers across geographies are investing in technological solutions to improve front-end sales, distribution and customer service, and enhance back-end operational efficiency and expense management. In India, too, the industry is witnessing game-changing developments in the form of improved distribution infrastructure, adoption of new channels and differentiated product offerings, backed by new technology initiatives.

As the world's 12th largest life insurance market, and the 4th largest in the Asia-Pacific region, the Indian insurance market offers immense potential for growth. We see significant growth opportunities riding on the rising awareness of the need for insurance and the current low penetration rate of life insurance. Favourable foreign investment policies and increased capital-raising options are also set to create a positive environment for growth of the industry in the new regulatory environment.

With our focus on promoting meritocracy and using technology as a business driver, we are ready to take the great leap forward. Our customer-centric approach, coupled with our highly motivated team, will keep us firmly on track towards achieving the echelons of greatness to which we are committed. Our product suite is designed to meet the different needs of our customers through their life cycle, and we shall continue to innovate as we surge forward on our growth trajectory.

From product to sales quality, from customer retention to persistency, and from asset to expense management, we are committed to delivering exceptional value to all our stakeholders, as we pursue our transformational goals for the greater good of all. As a responsible and reformsoriented organisation, we are focussed on setting the highest benchmarks of excellence to ensure delivery of promised benefits to policy owners, an environment of growth for our people and socio-economic progress for the society at large.

I would like to take this opportunity, on behalf of the Board, to thank all shareholders, customers and employees for their continued support in our tryst with greatness.

Warm Regards,

Suresh Kumar Chairman

CEO'S MESSAGE

"In order to become great we will need to remain steadfast in our journey and bring transformations that drive us to our Vision 2020."

Dear Shareholders,

With a power of belief we set out on an ambitious journey of good to great. While there is still a long road to be covered, last year we crossed numerous milestones in this ambitious journey. The last financial year was about aiming really high and accomplishing goals with an unwavering faith in our values, mission and ability.

The end result was truly encouraging – In FY 2015 earnings before tax surged by 93% to ₹155 crore led by growing new business premium and expanded in-force book. The Company's total premium grew by 29% to ₹1,070 crore. The Company reported a total new business premium growth of 53% and ranked 13th in new business premium in individual life. Our single premium rank surged to 8 against 14 recorded the previous year. Our total market share in new business premium among private players rose from 1.07% to 1.39%.

Customer first outlook

Your Company is out on an ambitious journey - offering customers the service that is a compelling mix of imagination and high-quality experience in a multi-channel environment. Keeping this as premise a number of service and operations initiatives were launched last year to strengthen our customer-centric promise. The year saw us adding some critical technologies across the ecosystem. The launch of policy administration system and e-insurance account implementation in a record time frame were the key highlights in this area. Apart from this our 8 day claims guarantee has received accolades from the media and industry, and has struck a chord with our customers. Under the 8 day claims guarantee, we settle claims in 8 days or pay 8% interest calculated daily on the sum assured. Ever since the initiative was launched in July 2014, the Company has not had to pay any penalty/interest on this count. All through the year your Company gauged industry dynamics, assessed internal capabilities and leveraged insights to deliver responsive service and make operational improvements to enhance the customer experience. The subsequent result of this strategy was best in class 13th month persistency of 76% and 15% increase in renewal income. We also had one of the lowest complaints ratio in the industry. The Company maintains a turn around time (TAT) of 8 days for complaints resolution against the IRDAI norm of 15 days.

Differentiated marketing strategy

To stand out in the maze of financial services communication, a life insurance company must communicate with a distinct approach. The last fiscal year saw us come up with a campaign after a gap of nearly 2 years. We launched an integrated marketing campaign for our flagship product Lifesurance Whole Life Plan. While most companies advertising at the same time used emotional routes, we chose a mix of humour and rational messaging to communicate the proposition of the plan. The result was that the campaign and the brand stood out in the clutter of other life insurance and financial services ads in that period. Our TV campaign was supported by outdoor and cinema activation in select cities. The campaign received a lot of positive feedback from the industry as well as the advertising and marketing fraternity for its unique approach and ability to present the product proposition in a simple and engaging style. Our sales teams also appreciated the campaign, which helped them immensely through their selling process in the crucial last quarter. In Public Relations as well, we ranked 6th in print media

A self-motivated team that thinks like the customer

A self-motivated, committed and thinking team is the most important asset an organisation can have in its journey to greatness. The year saw us launch a number of initiatives that were welcomed by both our sales and support staff. The organisation also launched an array of rewards and recognition programmes that further helped promote a culture of meritocracy and fairness. Apart from this a number of initiatives were launched during the year that help enhance the physical and psychological well-being of our employees.

Initiatives to manage costs

Efficient expense management is a crucial factor in our success. We believe in a policy that increasingly eliminates wasteful spending patterns and promotes productive investments that are thought-through. Regular reviews of our operating model, which include looking at process re-engineering, creating procurement efficiencies, following a robust budgetary control process, and reviewing the discretionary costs, have allowed us to keep tab on our expense ratios. Operating cost to gross premium came down to 19% against 23% reported in the previous year.

Staying steadfast on the journey from Good to Great

The last fiscal year was about dreaming big and taking a leap of faith to achieve the unparalleled. The next financial year will see us take forward our baton of 'Good to Great'.

We will need to remain steadfast in our journey and bring transformations that drive us to our Vision 2020. We have already launched a number of initiatives and programmes that will influence our capability of institution building and driving branch performance. Our focus on using technology as a business driver will continue and we will make further progress in the same. We will continue our efforts in making IDBI Federal a preferred place to work. It is these initiatives that will allow us to tap the vast potential that the life insurance market offers today. The outcome of these initiatives will present us with an opportunity to traverse smoothly in our journey from the being good to truly becoming great!

Thank you for your support!

A GREAT LEAP IN PRODUCT INNOVATION

Innovation is an important step towards acquiring greatness. Product-centric innovation is a crucial lever for the success of an insurance organisation.

At IDBI Federal, innovation begins with a deep understanding of the customers' stated and latent needs. Using a differentiated approach and establishing innovative product suite, we build solutions that cater to the various life-stage needs of our customers.

Apart from a strong and popular traditional product basket, last year, we also introduced an array of ULIP products. This was to provide our customers an avenue to participate in the growing equity markets. We launched Wealthsurance Growth and Wealthsurance Growth Single Premium plans to offer a balanced product mix in sync with changing demands of the life insurance consumer.

The success of our product strategy was clearly evident in our new business growth numbers. The Company recorded a growth of 15% over the previous year in the YTD new business in individual life. Our YTD single premium rank surged to 8 against 14 recorded last year. Our Group business also crossed the milestone of ₹100 crore in new business. Our plan IDBI Federal Retiresurance Group Insurance Plan was also well received by our customers.

OUR INNOVATIVE PRODUCT CATEGORIES

Our differentiated route of product branding has helped us achieve a strong mindshare amongst our target audience. We have built a suite of products that addresses the various life-stage needs of the customer. The trademarked names of our products clearly define the benefit and the value that they bring to the customer.

Termsurance[®]

Termsurance offers financial protection to the family of the life insured in case of the unfortunate event of the death of the life insured.

Lifesurance®

Lifesurance offers an array of participating endowment plans, designed to provide long-term savings along with life cover.

Wealthsurance®

Wealthsurance enables the life insured to build wealth while providing the protection of life cover.

Retiresurance®

Retiresurance offers plans that help the life insured build a corpus that lasts throughout his retired life to make them the best years of his life.

Incomesurance™

Incomesurance provides guaranteed regular income along with a life cover.

Microsurance[®]

Microsurance has been designed to provide effective insurance services for low-income groups and promote financial inclusion for the community.

Loansurance°

Loansurance is a cost-effective insurance plan that covers the life insured's outstanding loan.

Childsurance®

Childsurance offers solutions to ensure funding the life insured's child's future needs like higher education, marriage, vocational training, etc. Our well admired suite of product solutions reflect our innovation strength and underline the transformational focus of our product strategy.

A GREAT LEAP IN CUSTOMER OUTREACH, SERVICE AND CONNECT

Customer connect is a key driver of an organisation's journey from good to great. It is imperative, therefore, to align business strategy and goals to the needs of the customers.

We settle claims in 8 days or we pay 8% interest Led by our customer-centric approach, we undertook several initiatives during the year to further enhance our customer experience.

Strengthening the marketing outreach

We launched a 360 degree marketing campaign for our flagship product – Lifesurance Whole Life Plan. In an interesting departure, while most companies use the emotional pull to convey the message, we opted for a blend of humour and rational messaging to communicate the benefits and features of the plan. We used various media, including TV, digital, outdoor and cinema, to promote the campaign. Audiences connected well with the commercial; the brand awareness scores stood at an impressive 69% during the period of campaign.

Dematerialising the insurance policy

In keeping with the spirit of the IRDAI's move towards dematerialisation of policies, we took the lead in the issuance of e-insurance policies. We are not only offering customers new policies in electronic format but also facilitating conversion of their old ones into paperless form. We also provide customers with the facility to store multiple policies with an insurance repository of their choice. With this, we are able to service our customers better, especially with timely processing and payment of claims. Dematerialisation has simplified the whole process of buying, storing, retrieving and claiming insurance benefits.

Accelerating the payment process

Greatness in an insurance company is most evident in the speed with which it responds to the customer at the time of claims. We launched our 8-Day Claims Guarantee in July 2014. Through this initiative, we promise to settle claims in 8 days or pay interest to the customer/claimant at the rate of 8% p.a. on the death claim amount, for each day of delay beyond 8 days. We have not paid a single rupee of interest since the launch of this initiative.

Counselling customers surrendering their policies

Our high persistency ratio is a sign of our strong customer connect and we are consistently striving to enhance this ratio. To ensure customer retention, we created an inhouse surrender retention team to explain to the customer the downsides of early surrender and the inherent costs incurred as a result of such action. The team counsels the customer to retain the policy for his/her own long-term benefit. During the year, we successfully retained 4.26% of our customers opting for surrender.

Reaching out through Bancassurance, Agency and DirectSales Force

IDBI Federal has 3 channels to approach the customer, of which Bancassurance is the largest contributor (nearly 79% share of Bancassurance to Individual new business premium). During the year, we launched Step Up, an initiative to transform and increase the productivity of bank staff, also called Lead Generators. The initiative was further aimed at deepening our relationship with our partners. We also rolled out several other programmes to strengthen customer engagement. These included education on prudent financial planning, as well as special programmes for HNIs. At Federal Bank, we used the branch anniversary celebrations and 'Bank at Home' campaigns to increase customer connect.

In the Agency channel, we addressed the challenges of recruiting and retaining advisors, who were stressed due to lower commissions and the change in syllabus and exam patterns. Our interventions paid off and we recruited 30% more agents during the year, as against the previous years.

We are also in the process of increasing the presence of our Direct Sales Force across the country. Augmentation of the force will help ramp up the total business sourced from this channel. 79%

Share of Bancassurance to Individual new business premium

30%

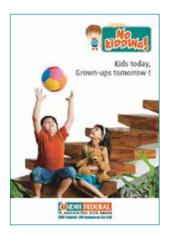

Additional agents recruited during the year, compared to the previous year.

Using multiple initiatives, we are continuously expanding our customer outreach and ensuring consistent growth for the organisation and greater value for the stakeholders.

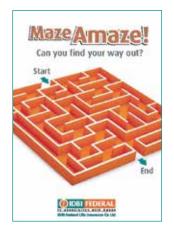

A GREAT LEAP IN COMMUNICATIONS

Effective communication is a single most important feature that truly defines the quality of association with customers.

Our best-in-class persistency, growing renewal premium income and low complaints ratio speak volumes about the meaningful relationship we have established with our customer using various communication platforms.

At IDBI Federal, we begin with the premise that the communication is intended to benefit the customer through knowledge and ideas. We believe that such knowledge can help the customer safely navigate through the ups and downs of his/her life.

We become our customers' partners in insuring their lives, building their wealth and protecting their livelihood, investments, children and family. Our communication strategy is two-fold. It encompasses both, one-to-many and one-to-one communication.

Our one-to-one communication ensures that the customers understand clearly what we seek to convey. We connect with them through a pre-issuance call to explain the details of the policy.

The communication continues throughout our relationship, with reminders at the time of payment, delivered with personal calls, SMS, emails, etc. We also have a strong grievance redressal and complaints handling process.

Our one-to-many communication uses clear, simple-tounderstand language and visuals, which are designed to connect with the masses.

Our sales aids and marketing collaterals speak to the customer in simple language, without jargons and technical terminologies. In the dizzying world of life insurance, we aim to demystify a category that they know little about.

In mass media, we use a differentiated strategy to ensure that we stand out in the crowd. A good example is our Lifesurance Whole Life Plan, wherein we used a combination of humour and rational messaging when the industry was focussed on emotional appeal. Such differentiated communication works to enhance our brand recall.

With our differentiated communication approach, we are able to ensure a strong and deep-rooted connect with our customers.

Our PR efforts are equally strong and we rank 6th in print media as per the independent study by TAM. Our CEO, Chief Investment Officer and, Chief Strategy and Marketing Officer are often among the top spokespersons in the industry.

Dear Shareholders,

Your Directors have the pleasure to present the 8th Annual Report, together with the Audited Statement of Accounts of the IDBI Federal Life Insurance Company Limited for the year ended March 31, 2015.

For the Company, the journey of the last 7 years, since inception, has been steered by some definitive and well-thought out strategic choices. These choices have enabled us to evolve as an organisation ready to scale new levels of success. They have positioned us among the few organisations that are destined for greatness, not as a matter of chance but by choice. As an organisation, we are ready for that great leap forward.

Total Premium Income in FY 2014-15

The Total YTD New Business Premium (Individual Life) for the year stood at ₹ 347 crore with a growth of 15%.

We are pleased to share that the Company delivered a stupendous performance despite an uncertain macro-economic and business environment.

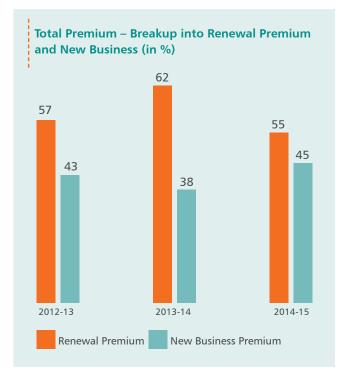

Business performance

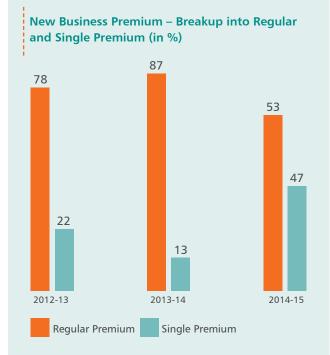

The last fiscal year came with its own set of opportunities and challenges. The regulatory environment continued to remain volatile; positive news came in the form of passage of the Insurance Laws (Amendment) Act, 2015. The Bill has raised the limit for insurance companies' foreign holdings from 26% to 49% and has allowed entry for reinsurers.

FY2015 was a year of unprecedented growth for the organisation, setting new benchmarks and achieving one milestone after another. The year saw us take a number of steps in

order to transform our journey to build a future-ready organisation. Our focus was not merely on growth and profitability but on strengthening our business model to emerge future-ready and well aligned to our new goal of shifting gears from being good to becoming great.

Your Company's ranking remains 13 in the YTD New Business in Individual Life. The Company recorded a growth of 15% over the previous year in the YTD New Business in Individual Life. Our YTD Single Premium rank surged to 8 against 14 recorded last year. Our total market share amongst private players rose from 1.07% to 1.39%. The Company's total premium grew by 29% to ₹ 1,070 crore. The Company reported a total new business premium growth of 53% and a 15% growth in renewal premium. Operating cost to

gross premium came down to 19% against 23% reported in the previous year. The 13th month persistency at 76% continues to be one of the best in the industry. Earnings before tax surged by 93% to ₹155 crore led by expanded in-force book and growing new business premium.

On our course to greatness, one important choice we have made is to focus on efficient expense management. We are constantly striving to ensure cost advantage for the Company through periodic review of our operating model. During the year, we further cut down our expense ratio, which remains among the best in the industry.

Financial performance with respect to operational performance

Premium income and product mix

The gross booked premium was ₹ 1,070 crore, a growth of 29% over the previous year.

The Total YTD individual New Business Premium for the year stood at ₹ 347 crore with a growth of 15%. The contribution of non-unit linked products in new business premium was 75% as against 93% in the previous

year. The contribution from Single Premium category also increased this year. From ₹ 41 crore collected last year, this year the category contributed about ₹ 105 crore to Individual Life new business premium. At ₹ 585 crore, the renewal premium grew by 15% over the previous year.

On the products front, the demand for ULIPs surged in an improving market scenario. We strengthened our product portfolio with new unit linked plans. We launched Wealthsurance Growth and Wealthsurance Growth Single Premium to offer a balanced product mix in sync with changing demands of the life insurance consumer. In a falling interest rate scenario, we are steadily diversifying our product share from non-par products to unit linked and participating products which have significantly less onerous guarantees.

To sustain our sales quality, we continue to sell products based on customer needs and life cycle suitability. This year we also launched a Whole Life product supported by an aggressive advertising campaign. The product, which gave us an entry into the Whole Life segment, was met with much sales success and forms an important part of our portfolio as we continue our journey from good to great.

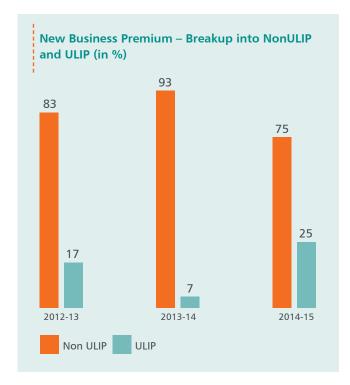

Our Group team brought a lot of cheer as they crossed the milestone of ₹ 100 crore in new business with our Retiresurance Group Insurance Plan.

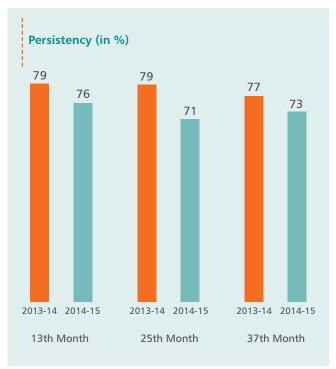

In continuation with our CSR and regulatory compliance to social and rural obligations, we launched a term plan for rural masses with a premium as low as ₹100 annually. We received regulatory approvals to launch our first Online Term product during FY 2015-16 and are also geared up to launch our offline term plan and unit linked child plan soon.

Segment performance

- We registered a net surplus of ₹24 crore in the non-participating life group business, as against ₹5 crore in the previous year.
- The unit linked business generated a net surplus of ₹ 12 crore, compared to net surplus of ₹ 62 crore in the previous year.
- In the non-participating life individual business, our net surplus was ₹ 118 crore as compared to net deficit of ₹ 4.11 crore in the previous year.

Our participating life individual business generated a net deficit of ₹ 34 crore as against net deficit of ₹ 18 crore in the previous year.

Customer retention and persistency

- A key ingredient to achieving success for any organisation is a consistent focus on customer centricity. We are continuously enhancing our focus improving servicing customer strengthening customer relationships to keep pace with our business growth and expansion as well as changing customer preferences and expectations.
- Given our customer centric growth strategy, we have a service model in place that allows for prompt and effective grievance redressal complaints and handling process. Special teams are in place to handle cases of High Net-worth Individuals (HNIs). Our 'Internal Customer Complaint Handling Committee' provides unbiased decisions on customer complaints. IDBI Federal is among life insurance players with the lowest complaints ratio.
- In line with our strategy to consistently enhance customer experience, we use SMS, emails and personal reminders to strengthen the renewal process. We have initiated a 'Feet on street' programme across 80 locations for cheque pick-up. Our online payment facility that has 55+ banks and major credit cards like Amex, Master and Visa, provides additional convenience to our customers. We effectively handle customer queries in various languages, especially in South Indian languages, through our multilingual call centres. technology integration with Federal Bank has made it convenient for customers to make renewal payments. IDBI Bank also collects premium for any customer across 1,300 locations Pan India.
- As a customer service initiative we have also set up an in-house surrender retention team to explain the impact and drawback of surrender, including charges, to customers. As a result, we were able to retain around 4.26% of our customers opting for surrender in FY 2014-15.

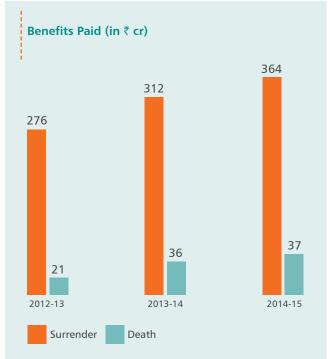

Our 13th month persistency stands at a healthy 76% based on premiums, which is among the best in the industry. Our 'pre-issuance calling' process has not only ensured a robust customer need to product fit, but also improved customer contactability. This initiative is expected to further enhance our persistency ratio in the coming years, besides maintaining the quality of business.

As a result of the various customer-centric initiatives that we have undertaken, our Renewal Premium is 15% higher than last year, whereas private players have seen a decline in this aspect. Our conservation ratio of 74% further reflects the success of our customer retention initiatives.

Operating cost ratio

A cautious approach is often the best way to tackle a tough external environment. Such an approach gets manifested in various ways, including efficient expense management, which is an area of constant focus at IDBI Federal Life Insurance. Some

of the expense management measures we have taken are:

- Regularly reviewing the operating model, including looking at process reengineering - centralisation versus de-centralisation of processes and outsourcing, among others
- Driving procurement efficiencies
- Following a robust budgetary control process
- Reviewing discretionary costs
- have We always recognised expense management efficiency as a major driver profitable growth. key is ensuring optimisation on the productivity front by full utilisation of capacities at the existing branches and professionalisation of salesforce. We are not against spending and investing resources and areas that will bring us growth; we are strictly against wastage and unnecessary expenditure. Our intent is not just to attain growth but to achieve

sustainable growth. We intend to grow our market share by driving capacities and focusing on productivity. Expenses ratio as operating cost to gross premium stands at 19%, which is credible among our peers in the industry.

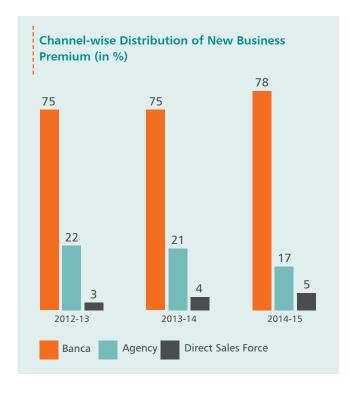

Human Resources (HR) and people development

- The Company has a strong and committed team of 2,283 employees as of March 31, 2015.
- We recognise that in our aspiration for greatness and for being the catalysts of change, our people are our change agents and we are committed to becoming the employer of choice. Our focus on developing talent forms a core employee value proposition and is delivered by offering challenging roles, internal mobility, training & development opportunities and internal job posting priority.
- We understand it is important that employees are committed and motivated to engage and connect better with customers. To this end, we launched

initiatives like Ideas Suggestion Scheme that helped us gain access to out-of-the-box ideas to enhance business. We also initiated programmes like Coffee with CEO, Focus Group discussions and CEO Blogs that foster a culture of openness, informality and transparency. Also, townhall meets by our Senior Management Committee across the country allow us to continually gauge the pulse of the organisation.

Fairness and meritocracy form the basis of our employee policies and work culture. To promote these values, we have developed rule-based policies practices that ensure consistency and transparency in all employee actions. A robust multi-tier performance ratification process is in place to reward meritorious work. Overall we have a framework in place that encourages a highperformance work culture. We launched several reward and recognition programmes for our team members during the year that allowed us to recognise extraordinary contribution towards the organisation's goals.

2,283 employees

The Company has a strong and committed team of 2,283 employees as of March 31, 2015.

We also believe in creating an environment which supports professional growth encourages employee stickiness with the organisation. Our initiatives like five-day week and flexi work hours have allowed us to give our employees a supporting work environment. During the year, we increased the benefits available in our medical policy, including new riders for the benefit of employees and their dependants. initiatives offer compelling mix for enhancing the physical and psychological well-being of our employees.

Assets under management and solvency margin

The Company has a well-defined approach for managing funds falling in various categories, viz., Participating, Non-Participating, Shareholder funds and Unitlinked funds, staying within the regulatory guidelines issued by IRDAI. The Investment Policy and Asset Liability Management Policy of the Company further define the scope of investment of funds in order to optimise risk-adjusted returns. Standard

- operating procedures are also laid down to improve operational efficiency and for referencing purposes. These policies and procedures are reviewed every 6 months to keep them updated and relevant.
- Non-Participating fund managed in a way such that the asset durations are kept within a predefined band of duration of liabilities, to minimise interest rate risk. We are maintaining duration of around 8.9 years in this fund. We have proposed to increase equity exposure in this fund from 5% to 10% of AUM, in line with the risk appetite of the Company and an expectation of a more assured economic growth, post the clear mandate from the 2014 general elections.
- Our participating fund doubled in size during the year. As funds are being deployed, we expect to be able to achieve the duration of approximately 9 years in this fund category. The required duration of this fund is 40 years, but long duration assets are not available in India. Hence, there is an asset liability mismatch in this fund. Portfolio yields in this fund
- category have marginally come down due to fall in interest rates in the economy. The duration of core shareholders' fund has also been increased during the year without impacting yields. Equity exposures in all 3 funds are within the risk appetite framework of the Company. Our unit linked products give investors the option to choose from a wide range of funds to create their own portfolios. Investors also get the freedom to switch among various funds on the unit linked platform, in order to rebalance their portfolios without incurring any additional cost.
- We are increasing the duration of our funds, in line with our view of falling interest rates in the economy. We have managed to restrict the fall in our portfolio yields at very marginal levels, compared to a 100 bps fall in market yields. During the year, all our unit linked funds have outperformed either respective benchmarks or have given returns very close to them. The Company has given return guarantees under certain funds which it is well-positioned to achieve.

Total funds under management are at ₹ 4,348 crore, a growth of 24% over last year. The size of unit linked funds stands at ₹ 1,721 crore, non-participating funds at ₹ 2,013 crore, participating funds at ₹ 185 crore and shareholders' fund at ₹ 429 crore as on March 31, 2015.

Benefits paid

- In the business of insurance, timely settlement of claims is a vital service function that cannot be overstated. difference between a great insurance company and the rest is the response to customer needs in times of duress. We are committed to providing our customers our best service, especially during claims. Our '8 Day Claims Guarantee' remained an important highlight of the year. Through this initiative, the Company aims to settle claims in just 8 working days. In case of failure, the Company pays an interest of 8% per annum on the death claim amount for each day of delay beyond 8 working days. Since we launched the initiative in July 2014, we have not had to pay any penalty/interest on this count.
- The nominees can also track their claims status online through our website simply by entering the policy number and date of birth of the insured.
- The 8 day period is calculated from the date of receipt of all the requisite documents for deciding the claim. The interest payment is applicable for death claims of the policies which have completed 2 years. The period of 2 years is applicable from the date of policy commencement until the date of the death of the life assured. The payment of interest shall not be applicable where the death claim warrants investigation. An evidence of our commitment to hassle-free claim settlement for the bereaved family is that we haven't had to

pay a single rupee of interest on death claims till now! The Claims Review Committee monitors the claims repudiations periodically and recommends process improvements on the basis of the experience.

Key highlights in the area of claims settlement include:

- The claims settlement ratio for IDBI Federal Life Insurance (of the decided claims) in FY 2014-15 was 76 % and our repudiation ratio remained 20% due to misrepresentation of adverse medical history, income, occupation, age and others.
- During the year, we paid net benefits of ₹ 31.49 crore as compared to ₹ 32.70 crore paid last year.

Industry developments and outlook

For the insurance industry, it was an action-packed year with several regulatory movements and customer centric reforms. The year saw companies stabilising through the new product regime introduced during theprevious financial year. Efforts were made to augment distribution, while the passage of the Insurance Laws (Amendment) Act, 2015 and the Budget announcements were the key highlights or milestones of the year.

With equity markets showing signs of improvements, one also witnessed renewed demand for ULIP products.

Policy Decisions and Regulations

Among the most important policy decisions in the year was the open in architecture Bancassurance. Bancassurance currently follows a corporate agent structure where every bank can sell insurance products of one life, one general and one health insurance company each. The Reserve Bank of India (RBI) released a guideline introducing the open architecture of bancassurance, as there were several late entrants in the market with not enough banks to tie-up with. RBI has approved of banks to operate as

brokers and sell insurance products of multiple players. For customers, this would lead to wider choice and greater convenience while for the banks it would mean increased accountability of the sales processes.

In the final norms, a bank can enter insurance broking only if the capital-to-risk (weighted) assets ratio is 10% or above and the level of net non-performing assets is 3% or below. Additionally, the bank's net worth should not be less than ₹ 1,000 crore, double the ₹ 500 crore proposed earlier.

Another important development was the recommendation in the Rajya Sabha select committee report on the Insurance Bill. The committee recommended that IRDAI look into the multiple corporate agency channels, allowing corporate agents to sell policies of multiple insurers, enabling greater convenience and a wider spectrum of offerings for the customer from a single agent.

The Government of India issued an ordinance to amend the Insurance Laws. Apart from increasing the FDI limit to 49%, the ordinance will further empower IRDAI to regulate key aspects of insurance company operations in areas like solvency, investments, expenses and commissions, which is in keeping with global best practices regulations. The ordinance provides for added impetus in areas of assignment of policy, nomination, right selling and claims settlement, among others.

Union Budget

The Union Budget this year was progrowth but gave few exemptions for the life insurance industry especially in the light of the plummeting household savings rate in the country. The increase in service tax from 12.36% to 14% will increase the overall premium amount for the policyholders. The upside is that individuals can now, through appropriate savings tools, save taxes up to ₹ 4,44,200 a year, which the finance minister indicated has potential to increase further over the next few years. Increase in the tax

exemption limit for health insurance is also a welcome move.

All in all, FY 2014-15 laid a strong foundation for future growth. We expect the industry to grow from here riding on stable regulatory, economic and political environment. Given the fact that the life insurance landscape remains heavily untapped, collective efforts will need to be taken towards building a 'customer centric' industry defined by a satisfied customer base. The need of the hour is to innovate at multiple levels and leverage the growth drivers to emerge stronger and build an exemplary model on the basis of consumer trust and valuable distributor relationships. We believe that these strategic investments will enable us to sustain our growth momentum in the years to come.

IDBI Federal's performance and outlook

Distribution channel's performance and outlook

Customer centricity being at the heart of our strategic charter to achieve greatness, we have adopted a multichannel distribution strategy to best reach and serve our customers. Our well-dispersed tied agency channel has further helped strengthen our Bancassurance presence. Our Direct Sales Force (DSF) channel is also progressively enhancing its presence across the country. While expanding our reach, these channels help us provide customised offerings to diverse customers. We are continuously scaling up our engagement through these channels, which are showing improved growth and profitability.

Channel-wise Distribution of New Business Premium

During FY 2014-15, the Bancassurance channel continued to be the Company's largest distribution channel, contributing 79% of our new business. The Agency channel contributed 17% and the Direct Sales Force channel contributed 5% to the new business.

Our Bancassurance services are spread over 2,000 bank branches of IDBI Bank and Federal Bank. As of March 31, 2015, our Agency network covers 65 branches across the country, with 367 Managers Distribution and around 13,089 Advisors.

Bancassurance channel

Banks have made a significant contribution to the growth of the life insurance industry. This is manifested at IDBI Federal as well, where Bancassurance distribution contributes about 79% of the new business premium in the Company. The channel also serves as a costefficient means of selling insurance products while giving insurers an opportunity for developing a direct relationship with the customer.

During the year under review, we launched 'Step Up', a transformation programme aimed at increasing the productivity of Lead Generators (LG) and deepening our relationships with our Bancassurance partners. This translated in improved participation from our partner banks and the impact is visible in the business performance for the year.

For the IDBI Bank channel, we undertook numerous other initiatives that allowed us to strengthen our customer engagement model and build traction for our sales staff. In select cities, we conducted investor education initiatives that addressed the need for prudent financial planning and savings through life insurance products. We also launched a series of successful HNI programmes.

A key strength of Federal Bank is its warm, reliable relationship with customers. To influence favourable sales outcomes, we tried to further nurture the bank's unique brand imagery through several engaging initiatives during the year. These included branch anniversary celebrations and 'Bank at home' campaigns. Through these personal interactions with bank customers, we got an opportunity to understand their needs better and offer them solutions accordingly. Apart from this, programmes like MDRT Experience and Hi-Impact Training for sales managers helped improve the competency and proficiency of oursales team.

Agency channel

The life insurance industry in India has been built primarily on a strong Agency channel foundation. Of late, however, private life insurers have experienced several challenges in the current agency model. Recruitment and retention of quality advisors remains a key issue due to lower commissions coupled with a change in the syllabus and the examination patterns. However, given our aptitude for thriving in difficult conditions, we successfully tackled this challenge to increase the number of Advisors recruited during the year. Our average number of Advisors was 30% higher than the previous financial years; Average Ticket Size was 9% higher than last year and 7% above the target.

Backed by focused efforts to increase the profitability of the channel, we managed to reduce the expense gap further by 9%.

Marketing

During the year, we launched an innovative marketing campaign for our flagship product Lifesurance Whole Life plan. This was our first integrated campaign in 2 years. Understanding the risk associated with the loss of life is a concept that is still not very well established in the minds of the Indian consumers. While most companies this year used emotional and persuasive routes, we chose a fine mix of humour and rational messaging to communicate the proposition of the plan. Whole Life is a difficult category to communicate and hence, most life insurance companies have not advertised this category or the products within.

Through the campaign, we brought alive the product benefits in a simple and interesting manner with a dash of humour. The result was that the campaign and the brand stood out in the maze of other life insurance and financial services ads in that period. Our TV campaign was supported by

outdoor and cinema activation in select cities. The campaign received a lot of positive feedback from the industry as well as the advertising and marketing fraternity for its unique approach and ability to present the product proposition in a simple and engaging style. Our sales teams also appreciated the campaign and helped them in sale through visibility of the brand.

In Public Relations, we ranked 6th in print media. Our CEO & Whole Time Director, Vighnesh Shahane, Chief Investment Officer, Aneesh Srivastava and Chief Strategy and Marketing Officer, Aneesh Khanna were among the top spokespersons among their peers in the industry.

Risk management framework

Discipline is a key component of a visionary organisation focused on greatness. To this end, we are continuously evolving our risk management framework for timely identification, intervention and mitigation of risks. Our risk management structure is guided by development, implementation and monitoring of financial and operational strategies.

We are thus able to not only assess the risks but also ensure mitigation, thereby improving our efficiencies and enhancing the value that we deliver to our stakeholders by aligning risk appetite and strategy with growth and return. Our assessment process ensures timely response decisions to minimise operational surprises and losses.

Cognizant of the strong connect between risk and return, we do not believe in risk avoidance; rather we are focused on understanding and managing risks effectively. This approach helps us identify the acceptable risks and optimise the same for expected returns.

We have a well-defined governance structure which clearly outlines the organisational hierarchy and the scope of responsibilities of all the Governance bodies involved in the risk management function. The Company's risk management governance structure includes the Board of Directors (Board), the Risk Management Committee (RMC), the Operational Risk Management Group (ORMG), the Asset Liability Committee (ALCO), the Anti-Fraud Committee, the BCP Crisis Management Team and the Product Concept Committee.

Risk Taxonomy continues to be a vital component of our risk management framework and helps ensure a consistent and comprehensive approach to risk identification, assessment, monitoring and response. Guided by this mechanism, we are able to properly highlight and define all the identified risks within the Company, which helps us evolve the necessary risk management efforts. It also helps establish ownership of the various risk categories and provides a link to the overall governance structure of the Company. As a result, risk management becomes a shared responsibility and is not owned by the Risk Management Department alone.

The IDBI Federal Risk Taxonomy structure:

| | Tot | al Risk | |
|--|---|--|--|
| Financial Risks | Insurance Liability Risk | Operational Risks | Strategic Risks |
| Counterparty Risk | Life Underwriting Risks | Conduct of Business Risks | Regulatory Risks |

| Interest Rate Equity Spread risk Investment default risk Liquidity Concentration | Life catastrophe risk | Internal fraud External fraud Information Security Malicious Damage Employee practices & workplace safety Execution Delivery & process management Event Risks Business Continuity Disaster & Public safety Technology & Infrastructure failures Model Risks Intangible Asset Risk Outsourcing Risk | Distribution Risk Reputation Risk |

Risk Management Organization

At the top level, there is Risk Management Committee of the Board which reviews risk management strategies, policies, standards and risk tolerance limits. This committee is supported by operating level committees such as Asset Liability Management Committee (ALCO) for Financial, Insurance and Credit Risk, and Operational Risk Management Group (ORMG) for Operational Risk. The Anti-Fraud Committee (AFC) has been constituted to monitor investigations and actions over reported frauds. The Risk Management Department of IDBI Federal acts as a risk control and co-ordinating unit. The responsibility includes setting up of a risk management framework, formulation implementation of risk management guidelines, development of tools and methodologies for the identification, measurement, monitoring, control and pricing of risks.

Risk Management Process

Financial Risk is managed by putting in place fund wise strategic asset allocation mix and various internal limits such as instrument concentration limits, duration limits etc. These limits are monitored on a daily basis by Middle Office and discussed in ALCO in its monthly meetings. In case of linked portfolios with minimum guarantees, the Company hedges the risk through duration matching/ cash flow matching within the applicable regulatory boundaries. The risks in Capital Guaranteed funds are managed using Portfolio Insurance Techniques. ALM system is in place to manage the interest rate risk, equity price risk, underwriting risks, liquidity risks etc. The Company has also put in place a credit review process to review credit risk of Corporate Bonds. The Company has put in place stress testing framework in accordance with IRDAI's guidelines.

In order to set clear and formal boundaries for risk taking, the Company has implemented Risk Appetite Policy. The purpose of Risk Appetite Policy is to ensure that:

- The exposure to a number of key risks taken by company remain within known, acceptable and controlled levels and activities:
- Risk Appetite criteria are clearly defined so that actual exposures and activities can be compared to the criteria agreed at the Board level allowing monitoring and positive confirmation that risks are controlled, and that the Board is able and willing to accept these exposures;
- Risk limits are linked to the actual risk taking capacity of the Company in a transparent manner.

IDBI Federal has defined a Risk Control and Self-Assessment framework for identifying and monitoring key operational risks. Key Risk Indicators are used to report important operational risks to Senior Management and Risk Management Committee of the Board.

In order to reduce claim frauds, the Company works on early warning indicators of high risk policies and investigates doubtful policies. Actions on fraudulent policies are taken basis investigation outcomes. The Company periodically undertakes risk awareness programmes basis learnings from such investigations.

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

 A brief outline of the Company's CSR policy, including overview of projects or programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

Corporate Social Responsibility (CSR) is the continuing commitment by business to behave ethically and contribute to economic development while improving the quality of life of the workforce and their families as well as of the local community and society at large. The CSR is the process by which an organization approaches, defines and develops its relationships with stakeholders for common good, and demonstrates its commitment. IDBI Federal Life Insurance Company Limited (IDBI Federal) believes that CSR is not charity or mere donations but a way of going beyond business as usual, creating shared values and contributing to social and environmental good. IDBI Federal's objective is to pro-actively support meaningful socio-economic development and work towards developing an enabling environment that will help citizens to realize their aspirations towards leading a meaningful life. IDBI Federal will endeavor its untiring efforts towards making a material and unwavering difference to the lives of the disadvantaged sections of the society.

In order to achieve the above objectives and fulfill the Company's commitment towards Corporate Social Responsibility, the Board of Directors of the Company at its meeting held on February 12, 2015 approved CSR policy of the Company and constituted a CSR committee of Directors to undertake CSR Porgrams/Projects and oversee its implementation.

Corporate Social Responsibility Policy of the Company is posted on the website of the Company. The web-link is as under;

INDEPENDENT AUDITORS' REPORT

To The Members of IDBI Federal Life Insurance Company Limited

1. Report on the Financial Statements

We have audited the accompanying financial statements of IDBI Federal Life Insurance Company Limited ('the Company'), which comprise the Balance Sheet as at March 31, 2015, the related Policyholders' Revenue Account, the Shareholders' Profit and Loss Account and the Receipts and Payments Account for the year then ended, and a summary of Significant Accounting Policies and other explanatory information.

2. Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and receipts and payments of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and the requirements of the Insurance Act, 1938, Insurance Regulatory and Development Authority Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 read with circular IRDAI/F&A/CIR/FA/059/03/2015 dated March 31, 2015 issued by IRDAI, ("the Acts") to the extent applicable and in the manner so required. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Acts for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Acts, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Acts and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

4. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements are prepared in accordance with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the requirements of the Insurance Act, 1938, Insurance Regulatory and Development Act, 1999, the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 read with circular IRDAI/F&A/

SCHEDULE - 16

Significant Accounting Policies and notes forming part of the Accounts for the year ended 31st March, 2015

1 BACKGROUND

IDBI Federal Life Insurance Company Limited ('the Company') a joint venture between IDBI Bank Limited (IDBI), Ageas Insurance International N.V. and The Federal Bank Limited was incorporated on January 22, 2007 as a company under the Companies Act, 2013 ('the Act'). The Company is licensed by the Insurance Regulatory and Development Authority of India ('IRDAI') for carrying life insurance business in India.

The Company's life insurance business comprises individual life and pension and group life, including participating, non-participating, variable, health and linked segments. Some of these policies have riders attached to them such as Accident and Disability Benefit and Critical Illness. These products are distributed through individual agents, corporate agents, banks, brokers, online and Company's sales force

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION

The accompanying financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting, in accordance with accounting principles generally accepted in India, in accordance with the provisions of the Insurance Act, 1938, Insurance Regulatory and Development Authority of India Act, 1999, and the regulations framed there under as amended from time to time, various circulars issued by IRDAI, the Companies Act, 2013 to the extent notified & applicable and the mandatory accounting standards specified under the Companies Act, 1956 ("the erstwhile Act")[which are deemed to be applicable as per section 133 of the Companies Act, 2013, read with rule 7 of the Companies (Accounts) Rules, 2014] to the extent applicable and in the manner so required.

2.2 USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities as on the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively.

2.3 REVENUE RECOGNITION

2.3.1. Premium income

For non-linked business, premium (net of service tax) is recognized as income when due. Premium on lapsed policies is recognized as income when such policies are reinstated.

For non-linked variable insurance business, premium is recognized as income on the date of receipt.

Commuted premium is considered as due in the year of commutation and is considered as renewal premium.

Top up premiums are considered as single premium.

For linked business, premium is recognized as income when the associated units are allotted.

2.3.2. Income from linked fund

Income from linked funds which includes fund management charges, policy administration charges, cost of insurance, etc. are recovered from the linked fund in accordance with terms and conditions of policy and are accounted on accrual basis.

2.3.3. Income earned on investments

Interest income on investments is recognized on accrual basis. Accretion of discount and amortization of premium relating to debt securities is recognized over the holding/maturity period on a straight-line basis.

Dividend income is recognized when the right to receive dividend is established.

Profit or loss on sale of debt securities for other than linked business is the difference between the net sale consideration and the amortized cost, which is computed on a weighted average basis, as on the date of sale.

Profit or Loss on sale of equity shares and mutual funds units for other than linked business is the difference between the net sale consideration and the carrying amount, which is computed on weighted average basis, as on the date of sale and includes the accumulated changes in the fair value previously recognized under "Fair Value Change Account".

Profit or loss on sale of investment held for linked business is the difference between the net sale consideration and the carrying amount, which is computed on a weighted average basis, as on the date of sale.

2.4 REINSURANCE PREMIUM

Cost of reinsurance ceded is accounted for at the time of recognition of premium income in accordance with the treaty or inprinciple arrangement with the reinsurer. Profit or commission on reinsurance ceded is netted off against premium ceded on reinsurance.

SCHEDULE - 16

2.5 BENEFITS PAID

Benefits paid comprise of policy benefits and claim settlement costs, if any.

Death, rider, withdrawals and surrender claims are accounted for on receipt of intimation. Survival benefit claims and maturity claims are accounted when due.

Withdrawals and Surrenders under linked policies are accounted in the respective schemes when the associated units are cancelled. Reinsurance recoveries on claims are accounted for, in the same period as the related claims.

2.6 ACQUISITION COSTS

Acquisition costs are costs that vary with and are primarily related to acquisition of insurance contracts and are expensed in the period in which they are incurred.

2.7 ACTUARIAL LIABILITY VALUATION

Actuarial liability for life policies in force and for policies in respect of which premium has been discontinued but a liability exists, is determined by the Appointed Actuary using the gross premium method, in accordance with accepted actuarial practice, requirements of Insurance Act 1938, IRDAI regulations and the Actuarial Practice Standards of the Institute of Actuaries of India. Liabilities under unit linked policies are the sum of the value of units and the prospective non unit reserve in respect of mortality and morbidity risks and future policy expenses, less policy charges.

2.8 INVESTMENTS

Investments are made in accordance with the Insurance Act, 1938, the IRDAI (Investment) Regulations, 2000, and various other circulars/notifications and amendments issued by the IRDAI in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, and excludes accrued interest.

2.8.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as short-term investments. Investments other than short-term investments are classified as long-term investments.

2.8.2. Valuation – shareholders' investments and non-linked policyholders' investments

All debt securities are considered as 'held to maturity' and accordingly stated at historical cost, subject to accretion of discount or amortization of premium over the holding/maturity period on a straight line basis.

Listed equity shares as at the balance sheet date are stated at fair value being the quoted closing price on the Primary Exchange – 'National Stock Exchange ('NSE')'. In case the equity share is not listed/traded on the Primary Exchange the quoted closing price on the Secondary Exchange – 'Bombay Stock Exchange ('BSE')', is considered as fair value. Mutual fund units as at the balance sheet date are valued at the previous day's net asset values. Equity shares awaiting listing are stated at historical cost subject to provision for diminution, if any, in the value of such investment determined separately for each individual investment.

Unrealized gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to "Fair Value Change Account" and carried forward in the Balance Sheet.

Any impairment loss is recognized as an expense in Revenue or Profit & Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its acquisition cost as reduced by any previous impairment loss recognized as expense in Revenue or Profit & Loss Account. Any reversal of previously recognized impairment loss, is recognized in Revenue or Profit & Loss Account.

2.8.3. Valuation - linked business

Government Securities are valued at prices obtained from Fixed Income Money Market and Derivative Association of India (FIMMDA). Debt Securities other than Government Securities are valued at Fair Value using Yield Matrix for Bonds released by Rating Agency, on a daily basis.

Money Market Instruments i.e. Certificate of Deposit, Collateral Borrowing and Lending Obligation are valued at cost, subject to accretion of discount or amortization of premium over the holding/maturity period on a straight line basis. Other Money Market instruments like Commercial Papers, Treasury Bills are valued based on Yield curve / Prices as published by FIMMDA, in line with the IRDAI guidelines.

Listed equity shares as at the balance sheet date are stated at fair value being the quoted closing price on the Primary Exchange – 'National Stock Exchange ('NSE')'. In case the equity share is not listed/traded on the Primary Exchange the quoted closing price on the Secondary Exchange – 'Bombay Stock Exchange ('BSE')', is considered as fair value. Mutual fund units are valued at the previous day's net asset values. Equity shares awaiting listing are stated at historical cost subject to provision of diminution, if any, in the value of such investment determined separately for each individual investment.

Unrealized gains/losses on investments are recognized in the respective fund's Revenue Account.

[IRDAI Registration No.135 dated 19th December, 2007]

SCHEDULE - 16

2.8.4. Transfer of investments

Transfer of investments from Shareholders' Fund to the Policyholders' Fund is at carrying amount or market price, whichever is lower. However in case of debt securities all transfers are carried out at the net amortized cost. Transfer of investments between unit linked funds is done at market price.

2.9 FIXED ASSETS, INTANGIBLES AND IMPAIRMENT

2.9.1. Fixed assets and depreciation

Fixed assets are stated at cost less accumulated depreciation. Cost includes the purchase price and any cost directly attributable to bringing the asset to its working condition for its intended use. The Depreciation is provided using Straight Line Method ('SLM') prorated from the date of acquisition/up to the date of sale, based on estimated useful life for each class of asset in the manner specified in Schedule II of the Companies Act, 2013, as stated below:

| Asset | Useful Life (in Years) |
|-------------------------------------|------------------------|
| Leasehold improvements | 3 |
| Communication networks and servers | 6 |
| Computers and peripheral equipments | 3 |
| Office equipment | 5 |
| Furniture & fixtures | 10 |
| Motor Vehicles | 8 |

2.9.2. Intangibles

Intangible assets comprising software are stated at cost less amortization. These are amortized using Straight Line Method over a period of 3 years from the date of being put to use. Significant improvements to software are capitalized when it is probable that such improvement will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent expenditures are amortized over the remaining useful life of the software. The expenses for support and maintenance of software are charged to Revenue Account in the period in which they are incurred.

2.9.3. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value as determined above.

2.10 OPERATING LEASES

Leases where the lessor effectively retains substantially all the risks and benefits of ownership over the leased term are classified as operating leases. Operating lease rentals are recognized as an expense, as applicable, over the lease period.

2.11 STAFF BENEFITS

- **2.11.1** Liability towards Gratuity is considered as the defined benefit plan and is recognized on the basis of independent actuarial valuation on "Projected Unit Credit Method" at Balance Sheet date.
- **2.11.2** Earned Leave which is encashable is considered as long term benefit and is provided on the basis of independent actuarial valuation on "Project Unit Credit Method" at Balance Sheet date.
- 2.11.3 The benefit in the form of contribution to the Statutory Provident Fund, Employee State Insurance, Group Term Insurance and Employee Labour Welfare Fund are considered as the defined contribution plans and are recognized on the basis of the amount paid or payable for the period during which services are rendered by the employees.

2.12 FOREIGN EXCHANGE TRANSACTIONS

Transactions in foreign currencies are recorded at the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities in foreign currency, if any, are translated at the year-end closing rates. The resultant exchange gain or loss arising on settlement/translation is recognized in the Revenue or Profit and Loss Account as applicable.

2.13 SEGMENT REPORTING

Based on the primary segments identified under IRDAI (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS-17 on "Segmental Reporting" issued by ICAI, the Company has classified and disclosed segmental information into Shareholder & Policyholder – Participating (Life), Non Participating (Life, Pension, Health & Group), Variable Non-Linked (Pension & Group) and Linked (Life & Pension) businesses.

There are no reportable geographical segments, since the business operations of the Company are given effect to in India and all the policies are written in India only.

SCHEDULE - 16

Allocation methodology

Revenues and expenses, assets and liabilities which are directly attributable and identifiable to the respective segments, are directly allocated for in that respective segment.

Operating expenses relating to insurance business are allocated to specific business segments in the following manner, which is applied on a consistent basis.

- a. Expenses that are directly identifiable to the segment are allocated on actual basis.
- b. Other expenses (including depreciation and amortization), that are not directly identifiable to a business segment, are allocated on either of the following bases:
 - Number of policies/certificate of insurance issued
 - Weighted Annualized Premium
 - Fund Size / Number of funds
 - Premium Income
 - Number of policies in force
 - Number of claims

The method of allocation has been decided based on the nature of the expense and its logical co-relation with various business segments.

2.14 INCOME TAX

Provision for income tax for the period is made after taking into consideration the benefits admissible under the provisions of Income Tax Act, 1961.

2.15 SERVICE TAX

Service Tax liability on life insurance service is set-off against the service tax credits available from tax paid on input services. Unutilized credits, if any, are carried forward for set-off.

2.16 PROVISIONS & CONTINGENCIES

The Company creates a provision for claims (other than insurance claims), litigation, assessment, fines, penalties, etc. when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.17 PRELIMINARY EXPENSES

Preliminary expenses are amortized over a period of ten years. Such preliminary expenses (to the extent not written off or adjusted) are adjusted in the schedule of Share Capital as prescribed under the IRDAI regulations.

2.18 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.5 ACTUARIAL METHODS AND ASSUMPTIONS

The actuarial liability on non-participating and participating policies is calculated using the gross premium method, using assumptions for interest, mortality, expense and inflation. In case of participating policies, assumptions for future bonus rates are also used, and these are set so as to be consistent with the valuation interest rate based on policyholders' reasonable expectations. During the year, the methodology / assumptions adopted for actuarial valuation have been reviewed in light of the Company experience and market interest rates. The overall impact of changes has resulted in lower policy liabilities by ₹ 138,473 thousands as compared to the basis adopted for valuation in the previous year. All these assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations. No allowance is made for expected lapses or policies expected to convert to paid-ups.

The interest rates used for valuing the liabilities are in the range of 5.45% (Previous Year: 3.70%) to 8.33% (Previous Year: 8.55%) per annum. Mortality rates used are based on the published IALM (2006-08) Ultimate Mortality Table, adjusted to reflect expected experiences whilst morbidity rates used are based on CIBT 93 table, also adjusted for expected experience.

[IRDAI Registration No.135 dated 19th December, 2007]

9. Risk Management

Sound risk management is a key component of IDBI Federal's strategy and is one of the core competences. Our risk governance organization is designed in such a way that there is absolute clarity on responsibility and accountability regarding risk management.

At the top level, there is Risk Management Committee (RMC) of the Board which reviews management strategies, policies, standards and risk tolerance limits. This committee is supported by operating level committees such as Asset Liability Management Committee (ALCO) for Financial, Insurance and Credit Risk, Anti Fraud Committee (AFC) for Fraud Risk and Operational Risk Management Group (ORMG) for Operational Risk. The Risk Management Department of IDBI Federal acts as a risk control and co-coordinating unit. The responsibility includes setting up of a risk management framework, formulation and implementation of risk management guidelines and development of tools and methodologies for the identification, measurement, monitoring, control and pricing of risks.

Financial Risk is managed by putting in place fund wise strategic asset allocation mix and various internal limits such as instrument concentration limits, duration limits etc. In case of linked portfolios with minimum guarantees, the Company hedges the risk through duration matching / cash flow matching within the applicable regulatory boundaries. The risks in Capital Guaranteed Funds are managed using Portfolio Insurance Techniques. ALM system is in place to manage the interest rate risk, equity price risk, underwriting risks, liquidity risks etc. Furthermore, the Company has put in place a credit review process to review credit risk of Corporate Bonds. In order to set clear and formal boundaries for risk taking, company has implemented the Risk Appetite Policy.

IDBI Federal has defined a Risk Control and Self Assessment (RCSA) framework for identifying and monitoring key operational risks. Key Risk Indicators (KRIs) are used to report important operational risks to Senior Management and Risk Management Committee of the Board.

In order to reduce claim frauds, the Company works on early warning indicators of high risk policies and investigates doubtful policies. Actions on fraudulent policies are taken basis investigation outcomes. The Company periodically undertakes risk awareness programmes basis learning from such investigations.

12. Investment valuation:

Valuation - Shareholders' **Investments and Non Linked Policyholders' Investments**

All debt securities are considered as 'held to maturity' and accordingly stated at historical cost, subject to accretion of discount or amortization of premium over the holding/ maturity period on a straight line basis.

Listed equity shares as at the balance sheet date are stated at fair value being the quoted closing price on the Primary Exchange – 'National Stock Exchange ('NSE')'. In case the equity share is not listed/traded on the Primary Exchange the quoted closing price on the Secondary Exchange – 'Bombay Stock Exchange ('BSE')', is considered as fair value. Mutual fund units as at the balance sheet date are valued at the previous day's net asset values. Equity shares awaiting listing are stated at historical cost subject to provision for diminution, if any, in the value of such investment determined separately for each individual investment.

Unrealized gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to "Fair Value Change Account" and carried forward in the Balance Sheet.

Any impairment loss is recognized as an expense in Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its acquisition cost as reduced by any previous impairment loss recognized as expense in Revenue or Profit and Loss Account. Any reversal of previously recognized impairment loss, is recognized in Revenue or Profit and Loss Account.

Valuation - linked business

Securities Government valued at prices obtained from Fixed Income Money Market and Derivative Association of India (FIMMDA). Debt Securities other than Government Securities are valued at Fair Value using Yield Matrix for Bonds released by Rating Agency, on a daily basis.

Money Market Instruments i.e. Certificate of Deposit, Collateral Borrowing and Lendina Obligation are valued at cost, subject to accretion of discount or amortization of premium over the holding/ maturity period on straight line basis. Other Money market instruments like Commercial Papers, Treasury bills are valued based on Yield curve / Prices as published by FIMMDA, in line with the IRDAI guidelines.

Listed equity shares as at the balance sheet date are stated at fair value being the quoted closing price on the Primary Exchange – 'National Stock Exchange ('NSE')'. In case the equity share is not listed/traded on the Primary Exchange the quoted closing price on the Secondary Exchange – 'Bombay Stock Exchange ('BSE')', is considered as fair value. Mutual fund units are valued at the previous day's net asset values. Equity shares awaiting listing are stated at historical cost subject to provision of diminution, if any, in the value of such investment determined separately for each individual investment.

Unrealized gains/losses on investments are recognized in the respective fund's Revenue Account.

Transfer of investments:
